49 Fellows to begin their graduate programs in the United States

The Vietnam Education Foundation (VEF) announces that 49 new Fellows and 6 Visiting Scholars will begin graduate studies and postdoctoral training programs in Academic Year 2012-2013.

These are two of the outstanding educational programs offered by VEF in its efforts to build the relationship between Vietnam and the United States through educational and culture exchange.

The fields of study of the new Fellows include biological and biomedical sciences, computer science, epidemiology, food science and technology, forestry, genetics, immunology, plant sciences, statistics, and engineering. The specializations in the field of engineering include aerospace, chemical, civil and environmental, electrical and computer, industrial and systems, materials, and mechanical engineering.

VEF Fellows getting to know about environment protection activities at Da Phuoc.

Especially, to prepare the new Fellows and Visiting Scholars for their transition to the United States, VEF provided a comprehensive Pre-Departure Orientation (PDO) program from June 7-13, 2012, in Da Lat, Lam Dong, and Ho Chi Minh City, Vietnam. The PDO is a mandate to the Fellows and Visiting Scholars, which will help them gain more experiences and strengthen their identity as VEF Fellows and Scholars. In Ho Chi Minh City, the Fellows and Scholars had a visit to Da Phuoc Integrated Waste Management Facility, discussing with the American experts working there.
